

Help Children Get Excited About STEM Before It's Too Late.

TryEngineering Together is a meaningful eMentoring program!

Based on the program's success, **150 schools** and **10,000+ students** are waiting to participate.

eMentor 3rd-5th graders in low-income communities*.

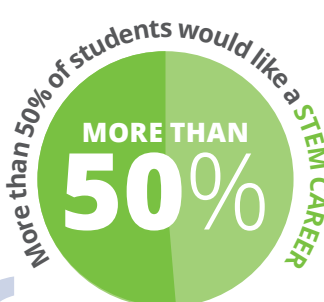

How TryEngineering Together works:

* Title 1 schools; 50% or more free/reduced meal students

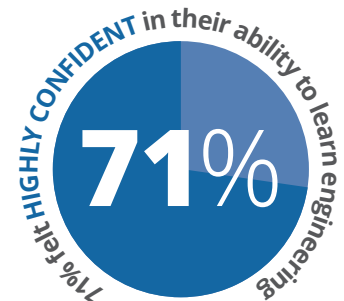

Students love STEM after TryEngineering Together!

“The project was amazing and I'm starting to like science even more!”
—STUDENT

“I enjoyed the articles and some of the engineers I read about are so cool. I would love to invent something that makes the planet better.”
—STUDENT

“My friends and I worked on the new STEM challenge we had to build a windmill and ours WORKED!!!! We were so happy.”
—STUDENT

Teachers and eMentors love it.

“I hope I am afforded the opportunity to be part of this program again...and that more teachers and students can be given this opportunity as well.”
—TEACHER

“I was able to make a difference in the life of a child, yet it took very little of my time and no time away from the office.”
—eMENTOR

Corporate sponsors & their eMentoring teams are needed NOW to help!
