

“The better writer you are,
the better reader you are.
CricketTogether gives students
an avenue to write real,
authentic writing.”

Jennifer Warren, 5th grade teacher,
Sugarland Elementary

CricketTogether[®]

Bring the power of eMentoring
to your classroom!

CricketTogether is a unique, innovative eMentoring platform that helps teachers create independent learners by combining powerful writing tools, compelling content and access to role models. By matching carefully-screened adults with students 1:1, CricketTogether creates a safe environment where students get guidance from and build friendships with their eMentors, learn from content that interests them, and receive coaching from their teachers along the way.

eMentor/Student
read Cricket articles
independently

Classroom
discusses the
article topic

eMentor/Student
exchange online letters
about the topic

ACHIEVEMENT

Spark Student Engagement

Leveraging Cricket's extensive portfolio of award-winning children's content, the platform sparks student engagement with real-life application of reading and writing.

Imagine a third grader in Washington, D.C. reading and learning about the environment and then sharing his perspectives in writing with a civil engineer in Philadelphia or a fifth grader in New York City reading about artificial intelligence and discussing the creation of smart robots in a letter to her mentor, a software developer in Silicon Valley.

Sponsored by corporations who encourage their employees to become CricketTogether volunteers, the platform is free for teachers to use with their students.

Designed for teachers by teachers, CricketTogether:

- Provides screened mentors from companies around the country
- Features Cricket's award-winning content
- Expands students' world view

Apply today to take your 3rd–5th grade students on the CricketTogether learning adventure during the 2020–21 school year.
